

The Nethercutt Collection

with Southern California Shelby Club

Saturday, July 10, 2010
only \$59 per person

On one of his California's Gold programs, Huell Howser visited the Nethercutt Collection in Sylmar and was amazed at the incredible treasures housed in a beautifully appointed exhibit facility just north of LA. Join us for a look at the must-see collection of J.B. Nethercutt, the co-founder of Merle Norman Cosmetics, who spent much of his fortune collecting rare automobiles, musical instruments, furniture and other treasures. Amassed over 70 years, the collections are now available for public viewing only by prearranged guided tours. Best known for its world-class collection of perfectly restored vintage automobiles showcased in an opulent Grand Salon, the San Sylmar museum also houses four additional floors of magnificent treasures, including a huge collection of automobile mascots and hood ornaments, exquisite Louis XV style furniture, and incredible automated mechanical musical instruments, including a Mighty Wurlitzer Theater Pipe Organ. Your excursion includes a 2-hour guided tour of the Nethercutt Collection, time afterwards to browse the adjacent Nethercutt museum housing more vintage automobiles, and time for lunch on your own in Old Pasadena.
